

POLL ON SCOTTISH INDEPENDENCE

Published 10th October 2013

As the leading supplier of opinion polls within Scotland for over 30 years, TNS BMRB will be publishing regular polling in the run-up to the Scottish Independence referendum on 18th September 2014, using the exact wording which will feature on the ballot paper for the referendum vote.

This is the second poll in this monthly series, which was published on 10th October 2013.

TNS BMRB is a member of the British Polling Council (BPC) and abides by its rules. We also operate within the Code of Conduct of the Market Research Society (MRS). In accordance with these rules the following information is provided:

Sample size	1004
Sampling points	71 Scottish parliament constituencies
Fieldwork dates	25 th September – 2 nd October 2013
Interview method	Face-to-face, in-home CAPI
Population sampled	All adults aged 16+ in Scotland
Sampling method	The poll was conducted through our Omnibus, Scottish Opinion Survey. For this survey, sampling points are selected to be representative of Scotland demographically and geographically. Within each sampling point, a quota sampling method is used for respondent selection.
Data weighting	Data is weighted to the profile of all adults aged 16+ in Scotland, based on population profile estimates from the BARB (Broadcasters' Audience Research Board) Establishment Report 2011, Mid year population estimates 2011 and the 2001 Census. Weighting is carried out in relation to working status within gender, age, social grade and electoral region. Data is also weighted by recalled vote to match turnout and share of constituency vote from the 2011 Holyrood election, as recorded in SPICe Briefing 11-29 2011 Scottish Parliament Election Results. Unweighted and weighted bases are shown at the top of each data table.
Questions	The data tables show the question wording in full
